Panama, May 14.—Advices from Nicaragua show that the Revolutionists are gaining ground, and daily are becoming more aggressive. Two battles fought near Masaya have resulted in favor of the Revolutionists, whose superior artillery caused the Government troops heavy losses.

Providence, R. I., May 14.—The Republicans elected a Senator in North Smithfield yesterday, which gives them with the Lieutenant Governor, fifty-five votes in the next General Assembly. This constitutes a majority in Grand Committee and enables them to elect Republican State officers.

Chester, S. C., May 12.—H. Brannon, alias Joe Williams, was hanged here at noon today for the murder of Stephen Kearny, an aged and infirm citizen of this city, on August 31 last. The execution took place within the jail walls, and was witnessed by sixty persons, among them were two white and three colored ministers.

Chattanooga, Tenn., May 12.—The Grand Jury today returned twenty-five indictments against Citizens alleged to have been concerned in the lynching of Alfred Blount, a negro who outraged an aged white woman. Five will be tried for murder and twenty as accessories. Several of the men are prominent citizens.

Russellville, Ky., May 11.—A band of white caps near South Union last night nearly killed a white man named Cardwell, by strapping him up to make him confess a theft. They also whipped Mrs. Mitchell, suspected of being an accomplice of Cardwell. Both have been warned to leave. There is much excitement over the incident.

Warren, Mass., May 11.—Warren Butterworth, aged seventy years, committed suicide here this afternoon by shooting himself through the head with a rifle. His daughter Emma, who was trying to prevent her father from committing this act, received the bullet in her head after it passed through her father's head, and she also died.

Washington, D. C., May 12.—The average condition of the winter wheat crop for all the States, according to the returns of the Department of Agriculture, is 75.2, against an average of 84 in May last year. The highest average is in the South, and the lowest in the principal wheat producing States of the North and West.

Columbia, S. C., May 12.—The County Board of Control were yesterday appointed by the Governor. They have charge of county wharves, appoint dispensers and the business. The dispensary was before the Supreme Court on its constitutionality, but these appointments indicate that the State officials feel confident of the result.

New York, May 12.—The 1,000 immigrants who were brought by the steamship Danica were landed today on the island. They were mostly Russian Jews. They were subjected to a strict examination, and as a result the detention rooms are crowded. Commissioner Benson said that many of the passengers were absolutely destitute, and it is likely that a number of them will be returned by the Danica.

Wilkesbarre, Pa., May 13.—Harris Blomhard and Isaac Rommeling will be hanged at Tunkhannock next Thursday for the murder of Jacob Marks. As they are without means, it was decided that their dead bodies should be

given to a medical college. To day a number of Jews met in Wilkesbarre and raised a fund to give their countrymen a decent burial and save them from the dissecting table.

Warsaw, Ind., May 10.—The village of North Galveston, ten miles northwest of this city, was almost entirely destroyed by fire last night. The residence of J. J. Jackson, among others, was consumed, and the entire family, consisting of himself, wife, two sons and a daughter, perished in the flames. Several other persons were badly burned.

Bedford, Ind., May 15.—At 2:10 o'clock this morning a mob of 100 men appeared before the jail here, forced the Sheriff to give up the keys and took John Turley, who murdered Conductor L. F. Price at Seymour, from his cell and hanged him in the jail yard. He begged for his life, but his appeals met with silence. The lynching was conducted in the most orderly manner, Turley's cries being the only sound heard.

St. Petersburg, May 14.—A small ferryboat on the river Meta, became unmanageable in mid-stream today, and was swept from her course by the current. The passengers, who filled her deck, were panic-stricken. The surging crowds made the boat list, and several passengers jumped overboard. Others launched a boat, which was at once overcrowded and swamped. Dozens of persons are known to have been drowned, and many more are missing.

London, May 11.—The drought of the last eight weeks has caused a great loss of farm and market garden products in the South of England, grain, vegetable and fruit crops are withering throughout the wide stripe of country. A plague of caterpillars is destroying the leaves, blossoms and small fruit in the apple and pear orchards. In Hampshire, Devonshire and Cornwall streams and wells are drying up and springs are running low.

Washington, May 11.—Collector Lotan at Portland, Oregon, today telegraphed Secretary Carlisle that the Danube had cleared for China with 406 Chinese on board who had been refused a landing in the United States. It is presumed that the Danube will carry the Chinese back to China, but they may be dropped off on British territory. The Tacoma is expected to arrive with 481 Chinese on board and the utmost care in the examination of their papers has been enjoined by Secretary Carlisle.

London, May 14.—The Captain of the steamship, City of Hamburg, which arrived at Swansea today from Hamburg reports that at 1 o'clock yesterday afternoon his vessel collided in a fog off Treveshead coast of the Cornwall, with the ship Countess Evelyn, bound with passengers and iron ore from Bilbao Spain to Newport, Wales. The captain of the Countess Evelyn jumped aboard the City of Hamburg and made Richards crawled to her through the hole in the Countess Evelyn's quarter. Ninety seconds later the Countess Evelyn went under with her crew of sixteen men and with nine passengers.

Lockport, N. Y., May 11.—A most peculiar case was concluded in the Supreme Court held in Niagara county today. Mrs. Anna Harris, of Tonawanda, charged with starving her nine-year-old step daughter to death for the insurance she had on her life, has been on trial in the court for the past ten days. Nearly fifty witnesses were sworn, and the evidence was nearly all circumstantial. The jury was out all night, and returned this morning with the verdict of manslaughter in the second degree and Judge Ward sentenced the woman to eleven years and six months imprisonment in the Erie county penitentiary.

Pulaski, Tenn., May 15.—News reaches here from Yell, in the adjoining county of Marshall, of the narrow escape from a horrible death of the sixteen-month-old child of Mr. M. Bivins. The child was in the front yard playing, when it was picked up by a large bald eagle and carried the distance of about three-quarters of a mile, where it apparently had to rest with its heavy load. Mr. B. F. Coleman was hunting near where it alighted and the screams of the mother and child attracted his attention to the eagle and he succeeded in killing it. Upon investigation it was found that the child was not seriously hurt. It was considerably scratched and bruised on the side where the eagle's claws had held it. The eagle measured seven and a half feet from tip to tip and weighed forty pounds. Mr. Bivins, the father of the child, will send its claws and wings to the World's Fair with a history of the killing.

Berlin, May 15.—The wife of Prof. Koch, the celebrated bacteriologist, recently procured a divorce from her husband and the Professor has now been ordered by the court to pay to her one-fourth of his income.

A CLEAN SWEEP.

In the Fullness of Time Democrats Will Be Put In.

Washington, May 12.—There is a growing indication that the extra civil service reformers who are now beginning to be disturbed by some of the dismissals and appointments that are being made will have a great deal more to think about in the course of time. While many of the Democratic statesmen who are at this time devoting their attention to the question of appointments are worried that the act does not fall a few more times to the hour, there is an impression, general enough to indicate that there is some ground for it, that in the fullness of time there will be a very complete change in all the offices not protected by the civil service law, and that the appointments to the places will be fairly apportioned among the Democratic workers.

POWERS BEST INDORSED.

Randall and Dempsey in the Fight.

Washington, May 14.—Now that the time for the appointment of the Internal Revenue Collectors for Kentucky is rapidly approaching, a survey of the field would not be out of place, and it will at least furnish some intelligent information for those most interested. The President last week told several members of the Kentucky delegation that he would be ready to talk with them this or next week about the appointment of these officers, though it is quite well understood that so far as the Kentucky appointments of Collectors are concerned, the Secretary of the Treasury will have much to say. This is right and proper, especially when it is remembered that Kentucky is the home of the Secretary. It will take a month, at least after the appointments are made for the successful applicants to file their bonds and get ready for business. It is generally agreed that the Collectors will be appointed the first week in June.

In the Second, of Owensboro, Internal Revenue district, the fight is a three-cornered one, the leading candidates being Powers, Randall and Dempsey. Senator Blackburn and Congressman Ellis have endorsed Mr. Dempsey, and Congressman Stone endorsed Mr. Randall. Mr. Powers is the best indorsed man, however, so far as the business portion of the district is concerned; in fact, he is most handsomely indorsed of any man for any position in the gift of the President. He has on file in the Treasury Department 500 personal letters of the leading and solid business men and Democrats from his district and the State, each letter urging his appointment. As he is splendidly equipped for the place it does not look as though his claims would be ignored, and one familiar with the situation is strongly inclined to the belief that Mr. Powers will be appointed.

OPEN ON SUNDAY.

The World's Fair Grounds Can Be Entered.

Chicago, May 13.—On and after May 21, the World's Fair grounds will be open every Sunday. This decision was reached at a meeting of the directors of the exposition in the Rand McNally building this afternoon. The action was taken on the report of Edwin Walker, chairman of the committee on legislation, which stated that the law passed by Congress stipulating that the Exposition should be closed on Sunday applies only to the buildings containing exhibits. Mr. Walker's construction of the act further says that the buildings erected for other uses, the grounds, Midway Plaisance, with its varied human panorama and things pertaining thereto, may be thrown open to the public inspection.

After considerable discussion a resolution was proposed to open the gates every Sunday on and after May 21, and to close the main buildings containing the exhibits. The resolution was carried by a vote of 22 to 7.

HORSE AND HORSE.

If Chinese are Shipped Back to China Our Missionaries Will Be Sent Back.

New York, May 14.—The Rev. Dr. James S. Baldwin, for 22 years a Methodist missionary in China, and for nearly a quarter of a century Secretary of the Missionary Board of the Methodist Episcopal church, which has large moneyed interests in China, said today that he had positive information from dignitaries of the Chinese Government, and from his own Chinese missionaries that if the Chinese exclusion act is carried into effect and Chinese are shipped back to this country to China, simply because they are here without certificates, that Americans in China will be likewise deported from that country to the United States.

TWO MASKED MEN'S WORK.

North-Bound Mobile and Ohio Passenger Train Held Up at Laketon, Ky.

Cairo, Ill., May 12.—At 10 o'clock last night as the north-bound passenger train on the Mobile and Ohio railroad stopped at Laketon, Ky., to take water, two masked men approached the engine, and covering the engineer and fireman with guns, compelled them to get off the engine and go with them to the express car, where they demanded that the express messenger, S. H. Ray, and H. C. Pentou, his assistant, open the door of the express car. This the messengers refused to do, and began hiding the contents of the safe and valuables.

The messengers were informed that if they did not open up the door it would be blown open with dynamite. They refused a second time, when a charge of dynamite went off blowing a hole in the side of the car. One of the robbers put his gun in and demanded that the doors be opened. Under promise of not being hurt, the messengers opened the door, and the robbers secured everything that was left in the safe. They left the car and escaped in the timber. None of the passengers were molested.

The Mobile and Ohio officials decline to say what amount was secured by the robbers, but assert that the loss is only about \$1,000. They are much pleased with Messenger Ray, who they say managed to secrete the larger portion of the money and valuables in the car before the robbers gained entrance.

Cairo, Ill., May 13.—John Pickett and St. Jones were arrested at Berkeley last night for committing the robbery on the Mobile and Ohio Railway at Laketon, Ky., Thursday night. They are desperate characters, who lived in the neighborhood. A telegram from Superintendent Agee to night say the men are in jail at Berkeley in default of bail. The evidence against them is conclusive.

FLOOD DISASTER.

A Levee Breaks and Will Cause Great Suffering.

Greenville, Miss., May 11.—The levee between this place and Lakeport, Ark., on the west side of the river, broke at an early hour this morning, flooding the greater portion of Chicot county, Ark. The crevasse at 5 o'clock this afternoon was over 200 feet wide and caving rapidly. The break occurred near Sunshine landing in a bend of the river. The levee was a new one, but was regarded as weak, and the people were in a measure prepared to flee for their lives when the catastrophe occurred. Many thousands of acres of corn and cotton in an advanced state of cultivation have been flooded and great destruction will be the result. The water will flood Chicot County, Arkansas, Texas, Madison, Morehouse and East and West of Carroll parishes in Louisiana, and make its way into Bayou Tenesse, thence to the river below Natchez.

That section of country is thickly settled by farmers and plantation owners, who have not recovered from the floods of a year ago, and they are poorly prepared to stand the present disaster. The Missouri Pacific tracks are under water for about thirty miles below Arkansas City and traffic cannot resume before the middle of June.

DIRECTED BY A SPIRIT.

Frank Elmore Finds a Fortune in Gold and Silver Under His House.

Birmingham, Ala., May 12.—About five years ago, while confined to his bed from illness, a visitor from the spirit world visited Frank Elmore, of Pickens county, in his dreams. The spirit told him that he would find treasure at a certain place under his house and that a stick in the ground would indicate the exact spot. The visitor also told that he would be in danger if he revealed his find until the lapse of five years. He was also instructed to erect a monument over a grave near the house from the proceeds.

Mr. Elmore told his wife to look for the treasure. She did so, and found the stick. Mr. Elmore got up and went in search of the money. About six inches below the surface his pick struck a rock. Turning this up he found large iron pots filled with gold and silver coin of ancient dates. There was \$20,000 in silver and \$5,000 in gold.

The five years expired last March, and Mr. Elmore began using the money. A few days ago he started J. A. Solivau and M. Bailey to Boston with \$3,000 in gold for exchange at Premium Bank of Boston. The coins are of a very ancient date and worth premiums. The young men have returned from Boston, where they made the exchange. They say they received several thousand dollars in premiums.

FROM TOP TO BOTTOM.

Ten Men Fall a Distance of Three Thousand Feet.

Houghton, Mich., May 14.—Ten timbermen were dashed to pieces in the Red Jacket perpendicular shaft of the Calumet & Hecla, at noon today. The miners were coming up in the cage to dinner and the engineer hoisted the cage against the timbers of the shaft, when the coupling pin broke and the men and the cage dashed downward over 3,000 feet to the bottom.

The cause of the accident was a faulty indicator, which did not show the brakeman in charge of the hoisting apparatus when the cage had reached the top of the shaft, consequently he could not stop the machine in time, and when the iron car struck the beams at the top of the shaft the steel wire rope by which it was suspended snapped, letting the cage with its ten occupants down to a fearful death at the bottom of the shaft, 3,000 feet down.

T. W. PALMER.

PRESIDENT OF THE WORLD'S FAIR.

The World's Fair is open and ex-Senator T. W. Palmer, who presides over all this bustle and activity has long been before the public. He was born at Detroit, Jan. 25, 1830, and is consequently now in his fifty-fifth year. His father, Thomas Palmer, was a well known business man of Michigan, and his mother was a sister of the late Judge Withersell, of the Wayne Circuit Court. He received his education in the common school of Detroit, in Thompson's Academy at Palmer, no Saint Clare, and finished his studies at the Michigan University, Ann Arbor. After leaving college he visited Europe, where he made a pedestrian tour of Spain; on his return he made a stay of several months in South America. In 1853 he began a real estate business in Detroit, and soon afterwards married a daughter of Charles P. Merrill, owner of one of the largest lumber concerns in Michigan, becoming associated with his father-in-law in his management and ownership. On the death of this gentleman Mr. Palmer and his wife inherited his business interests. Mr. Palmer gained his first experience of public life as a member of the Board of Estimates in Detroit and also served one term, 1879-80, in the State Senate. He was defeated as a candidate for Congress in 1870, but was elected to the United States Senate in 1883. The contest was very exciting and it was only upon the eighty-first ballot of the Legislature that Mr. Palmer was victorious. He took his seat as a Republican December 3, 1883. Mr. Palmer has made a very successful lawyer at Washington, and has taken great interest in the Watersway question.

A School Tax.

Besides electing two trustees, the Marion school district will vote upon the proposition to levy a 25 cent ad valorem tax, and a \$1 poll for three years. The money realized to be used in building a school house. The election is the first Saturday in June. Let us have school men elected trustees. Men who will, if it is necessary, neglect, to a small extent, their own business to look after the school. Men who are not afraid to spend money, if necessary, to make the school a success. Men who will know nothing but qualifications in the selection of teachers, men who have back-bone like John Sullivan and energy like a cyclone, and resources sufficient for any emergency. Marion has got to have a good school house, and a good school; there has got to be a general shaking up of dry bones to get it; some one is needed to take the lead. Let men be selected for trustees who will take the lead. Some of the teachers employed this year—and they are mighty good ones too—are hunting schools elsewhere, because Marion has no house fit to teach in. This is a state of affairs that Marion should be ashamed of, and common decency demands a speedy removal of all things that hinder the school from being the equal in every respect of any other town of its size.

Mr. Carlisle's department of the government is going Democratic pretty rapidly. The Secretary knows his rights and is proceeding to maintain them. One of his late and commendable movements, is the discharging of the head of the stationery department. The discharged employee's name is Sturtevant, and he is speaking like a wounded pig. Sturtevant has been in the office twenty-five years and is one of that class who believes that the offices were made for them and that the government will go to the demolition howl without them. Such cattle ought to be heaved out the back and front door, and it is gratifying to see Mr. Carlisle putting in his leisure moments pitching them out.

At Frankfort there is an institution for the instruction of the feeble minded. It is maintained at the expense of the State, costing a few thousand annually. The class of unfortunates that it benefits is very small, hence its usefulness is not extensively recognized. A bill has been introduced to abolish the institution, and as the legislature is lately smitten with a spirit of reform, it is likely to pass, and the State will be deprived of an institution that added to the lustre of her name. Getting dollars and saving dollars is not all that makes a civilization.

The Republican State League at Louisville last week adopted resolutions condemning the new constitution and the convention which adopted it. At the Republican State convention previous to the ratification of the constitution, resolutions endorsing the constitution and urging its ratification were passed with a whoop. There seems to be a difference of opinion between the Republicans who run the League and those who run conventions.

Congressman Stone has returned from Washington and unless he issues an edict similar in import to the Cleveland anti-office seeker visit, his home will be the Western Kentucky Mecca. Capt. Stone is not likely, however, to shut himself away from the boys. He is of an affable disposition, has plenty of patience and is not without ambition.

According to a decision of the United States Supreme Court the United States will have to refund all the way from \$8,000,000 to \$30,000,000 wrongfully collected as tariff duties under the McKinley act, upon certain class of goods. Just how the money will be refunded to the people who bought and used the goods is not stated.

Lexington offers \$250,000 and the necessary grounds for the State Capital. Danville will probably make the same offer, while Frankfort continues to take a large slice out of the Legislature's per diem. Frankfort is too happy now drawing that per diem to worry about the removal.

The floods this year will prevent the planting of 75,000 acres of cotton in seven counties in the St. Francis Valley, Ark. The cotton usually raised in the counties amounts to 40,000 bales.

The World's Fair directors have decided to run matters to suit themselves, and in order to be under no obligation to the government, the \$2,500,000 voted by Congress will be returned.

The saloon question will be settled at Princeton Saturday. A hot fight has been made by both pros and cons, and nothing but the count will tell who is winner.

The legislative candidates are sailing smoothly. There is no friction except when the boys meet on the

ROAD LAW.

It is rather a difficult to keep piece with a bill that make its way into the Kentucky Legislature. It meets with so many changes, from the beginning, that when it arrives at the age of completion, if it ever does, it has but little resemblance to the original. Hence it is dangerous to publish a bill, and say that it has been passed. Representative Summers has sent us a copy of what purports to be the new road law. With the above remarks we clip the following sections from the bill:

Sec. 19. The fiscal courts of the several counties of this Commonwealth shall have full power and authority to levy an ad valorem tax of not exceeding twenty-five cents per year upon each one hundred dollars of property in their respective counties assessed for taxation for State and county purposes, for the purpose of maintaining and keeping the public road in repair and may direct what officer shall collect the same, require bond, with good security therefor, to be approved by said court, and fix the amount of commission to be allowed said officer for his services for collecting and paying out said tax, and to whom the same shall be paid, and require said officer to settle his accounts therefor at such times as they may deem proper.

Sec. 20. The fiscal courts may require all able-bodied male citizens of their county, over eighteen and under fifty years of age except licensed ministers of the gospel, and citizens of incorporated towns and cities, to work on the public roads of the county, not exceeding four days in each year.

Sec. 21. The fiscal court shall prescribe all rules and regulations for the proper management and repairing and keeping in repair all public roads in their county, and in fact may do every thing that is necessary to be done for the purpose of keeping up, and in good repair, all bridges and public roads in their several counties, and make a reasonable allowance to such supervisors for their services, and require the supervisor to give bond, with good security, for the faithful discharge of their duty.

Sec. 23. Any supervisor or overseer who shall willfully fail or refuse to discharge their duties, shall be guilty of a misdemeanor, and, upon indictment and conviction, shall be fined not less than five nor more than twenty dollars for each offense; and any one assigned to work on a public road who shall fail or refuse to work after having been notified, as the fiscal court may direct, without a lawful excuse, shall, upon trial and conviction before a justice of the peace, be fined for each day they shall so fail to work two dollars and fifty cents. All such fines shall go into the road fund of the county, to be used for road purposes, and upon non-payment of said fine a capias pro fine may issue.

Sec. 24. Any corporation, company or individual engaged in lumber, mineral, quarrying, or any other business that requires the constant use of a particular road or roads for hauling any material to or from their mills, mines, quarry or other places of business; or any contractor who owns or employs teams, and who is constantly using a particular road for delivering mineral, lumber, logs or stone to any point for shipment, or where such material is, by contract, to be delivered, shall repair all damages caused by the use of such road or roads.

Sec. 25. That any taxpayer who may so desire shall have the privilege of working on the public roads in his county sufficiently long to pay his road and bridge tax, but shall work for the same compensation per day, and the same number of hours per day, and under the same regulations, that other hands employed to work on the roads do, and the supervisor shall give such person a receipt, specifying the number of days he may so work, and if the work done shall equal his tax at the specified price agreed on, then such receipt shall be evidence of the payment of his road and bridge tax in full, but if he only works out a part of said tax, the receipt shall only evidence a part payment thereof.

Sec. 26. All male persons confined in county jails or work houses, either under sentence of court for misdemeanors or imprisoned for non-payment of fines, shall be available to the supervisor for the purpose of working them on the public highways.

A Correction.

In writing the call for the Democratic Senatorial and Legislative Conventions the precincts were given "one vote for every twenty-five and fraction over thirteen cast for Cleveland." It was the intention of the committee to give one vote for each twenty-five and fraction of thirteen or over, and the matter has been so corrected by the committee. This very justly gives Crittenden 44 votes instead of 42 as published last week. The precinct meeting to choose delegates to both the Senatorial and Legislative Conventions will be held at 2 o'clock Saturday June 3. The Salem Legislative Convention will be held June 6, the Senatorial Convention will be held in Marion July 11. Don't forget any of the dates, and be sure to go to your voting place on June 3, at 2 o'clock and vote for your choice.

WHO WILL GET IT?

THE BIG FOUR AND L. & N. AFTER THE N. N. & M. V.

Including, of Course, Our Own O. V.

The Henderson Journal says: The fact that President M. H. Smith, of the L. & N. R. R., and party recently made a trip on the N. N. & M. V., and up to Henderson over the O. V., has again started the report that the L. & N. is about to buy the N. N. & M. V. system entire. The Journal is reliable informed that such change of ownership is likely to occur before the expiration of the present week. The Big Four, owned and operated in the Vanderbilt interest, has been after the N. N. & M. V. for some time with the view of extending their line to Nashville, where Huntington owns very valuable terminal facilities which are to be included in the sale. To keep out a competing line at Nashville is one great aim of the L. & N. It is to keep the Big Four out of Nashville that President Smith has cast his eye at the Huntington interest, and when M. H. Smith starts out with a hotchpot he generally returns with a cherry tree—cherries and all. Exactly how anxious President Ingalls, of the Big Four and his Vanderbilt backing wants the Huntington interest is not known, but if they want it very hard they will go sky high with the L. & N. as a competitor.

We do not conceive that Henderson's interest will be damaged by the change. True, it will give the L. & N. a monopoly of Southern shipments, but as a matter of fact rates must be fixed upon an equitable basis to meet river rates. The L. & N. already has monopoly of Southern shipments.

It has improved the service right along giving quicker time and better facilities. If it gets the N. N. & M. V., it will doubtless pursue a similar policy, but will have greater competition by water. If the Big Four gets it, we will also have nothing to complain of in the way of competition and management. However, it is barely possible that there will be no change, and in that event Henderson will also be pleased. In fact the outlook for Henderson cannot be affected.

The Big Four, L. & N., and N. N. & M. V., are all good roads and Henderson is getting a good thing in having either one to come to her door.

HERE AND THERE.

The Third Party delegated convention meets at Shady Grove, Saturday, May 27, to nominate a candidate for the State Senate. Three delegates from each precinct in this county have been appointed, and it is said that some of these delegates are opposed to a nomination. What the other two counties have done is not known.

A Chicago correspondent writing of Kentucky's exhibit at the Fair says: "Dr. Clardy is putting the finishing touches upon the Kentucky display in the Agricultural building. Several expert tobacconists from Louisville and elsewhere have been assisting him in arranging the tobacco ornaments in which the Kentucky pavilion is trimmed. The very handsome general effect of the display, in which tobacco and hemp predominate, is heightened by the pretty devices in tobacco, which really make the weed look 'good enough to eat.' Gurnel Vaughn remarked to-day that 'you almost had to use a maul to keep the spectators who chew from eating up the whole display.'"

The Company which founded Grand Rivers and invested so much money there, publishes the following card:

"Owing to legal complications which have arisen during the past six months and which have put in serious jeopardy the property and interests of the undersigned company, it has been decided by the said Companies that their interests will not warrant their proceeding with any further development during the pendency of said complications. Therefore, we, the undersigned, hereby give notice to all parties interested that until May 1, 1894, all lands owned by them in Livingston county will be used by them or their tenants as farm land only, and that the Farmington Plant and other buildings with the exceptions of one office building and seven houses, will remain unoccupied, and be considered as disused property."

The Baptist College will certainly be built. At the recent meeting of the building committee Mr. Jno. W. Hamman was appointed to raise the \$8,000 necessary with the \$5,000 given by the Sturgis and vicinity citizens, to build the \$12,000 house, and a little over for out buildings, fencing etc. Mr. Hamman is full of energy and enterprise and if it can not be raised by him it can not by any other living man. He will start about June 1, giving all his time and expenses, to be remunerated and expenses refunded to him when he has raised the \$8,000—Sturgis Enterprise.

None of the Kentucky towns have done as well for Sam Jones as Hopkinsville. He got here \$2,000 and \$200 additional for his Orphan Asylum. Bowling Green gave him \$2000 Paducah, \$2,170 and Owensboro \$2,127. He has also held a meeting at Kokomo, Ind., this year and has delivered several lectures, one of them in this city. His receipts in four months have been considerably over \$12,000. It pays to be the great and only Sam Jones—Hopkinsville Kentuckian.

Considerable excitement was raised here a few days ago over what was thought to be some convicts escaped from the branch penitentiary at Eddyville, but oh close examination it was found to be some of our citizens returning from an excursion to that place.

Jas. H. Stone has returned from Missouri, where he has been teaching school.

The Tolu Academy is attracting considerable attention. There have been applications from Illinois, Tennessee, and different parts of Kentucky, but the trustees tell us that Miss Brown and Miss Griffith are their preference.

Mr. Crawford the library man was not successful here. Every one said it was a good thing, but you see the Tolties are not hungering and thirsting for lore as did the Grecians of old, so they said to Mr. Crawford, "go thy way for this time, at a more convenient season we will send for thee."

The merchants of Tolu are doing a good business this spring. Notwithstanding the roads on all sides have been almost fast fording for some time, the people have come. They come through fields and through woods, skiffs, steamboats. It reminds one of the rush for Oklahoma. Why is all this rush? Because they get what they want at a price that suits them.

The Things We Prize Most

are not the gewgaws and ginkerns we gather about us. Every life, of course, has its sacred, untitled treasures, but in this practical work-a-day world man is prone to value most those things which serve him best. Not much sentiment in this, perhaps, but some sense all the same.

The McCormick Machine of Steel

takes first rank the world over. Hundreds of thousands of grain growers call it the best harvester and binder that ever went into a grain field, and they prize it accordingly. It is a sentiment with them. It is just plain, old-fashioned common sense. They like it best because it serves them best.

It costs more money than some harvesters, but that's because it's more valuable. Its advantages more than offset the added cost. The "Machine of Steel" is built to harvest the grain crop of the world, and to do it better than any other machine.

Perhaps you may care to know more about this harvester. Our catalogue will interest you. MCMORMICK HARVESTING MACHINE CO. CHICAGO, ILL.

A CARD.

F. M. Clement Has a Few Words For The Voters.

At the solicitation of friends I have concluded to become a candidate for the Legislature. I am always subject to the action of the Democratic party. The time before the precinct meetings is too short for me to see you all personally at your homes. If possible, however, I will visit you. In announcing myself I desire to state that I will appreciate your vote, if you think I am worthy, and qualified. If I should be given the nomination, I will use all honorable means to win the election; and if elected, I will use all of the energy and ability I may possess to faithfully represent the people of Crittenden and Livingston counties in the next General Assembly of Kentucky.

Yours Truly, F. M. CLEMENT.

The people of Marion were greatly surprised Sunday to hear that Mr. J. E. Brawner had been displaced as agent for the O V at this place. He is the most popular agent the county has ever had at this place, and so handsomely does he fill the office that the people regarded him as a fixture. The business men were well pleased with him, and his relations with them have been entirely satisfactory and pleasant.

Mr. Brawner was seen yesterday; he was preparing to go to Louisville to have an interview with the officers of the road, when questioned as to the cause of his removal he said that there was a misunderstanding between himself and the train dispatcher; the officials of the road had heard the dispatchers statement and acted upon it; that he proposed to put the facts before the powers that be, and he felt sure that when the matter was understood by them that he would be reinstated. Mr. Tichnor took charge of the office at this place Monday.

One of the most pleasant affairs of the season was a musical given at the residence of Mr. R. W. Wilson last Thursday night in honor of Misses Alma Mott and Mettie Wigginton, of Fredonia. The programme contained some choice selections, such as duets, piano solos, harp solos, songs and recitations. Those present were Misses Alma Mott, Mettie Wigginton, Anna Wilson, Lennah and Della Barnes, Elviah Crider, Fannie Blue, Maggie Wallingford, Bessie Carmahan, Lucy Walker, Mrs. B. S. Fenwick, and Messrs B. S. Fenwick, David Woods, J. H. Orme, Wm. Wallace, J. J. Clark, Thos. Cochran, O. M. James, C. S. Nunn, John Wilson, W. G. Hammond.

The following are the names of the pupils of the Primary department of the Academy who reached the Roll of Honor during the last month of school: Ross Selwyn, Stella Reed, Etta Coppler, Estell Walker, Kay Kevil, Robert Guess, Ed Guess, Maurice Schwab, Walter Walker, Melrose Vernon, Robert Gore, Roy Lamb, Bob Hodge, Ernest Carmahan, Pate Cossett. Kay Kevil being in school every hour of the term, not playing "hooky" even once during the term, was awarded the prize. Robt. Guess made the best advancement from the beginning of the public school in September to the close of the spring term.

Alice Browning, Teacher.

Rev. Jas. Price and B. F. McMillan left yesterday to attend the General Assembly of the Cumberland Presbyterian church at Little Rock, Ark. They will be absent several days. "One of the interesting features of the Assembly" said Rev. Price, "will be the question of ordaining women to preach. Our church has one ordained woman preacher, and by the way she is a Kentuckian, and a successful revivalist preacher. A movement will be made to rescind the law authorizing the ordination of women to the ministry, and both sides of the question will have noble advocates."

Yesterday evening after court adjourned the Kings and Moore's came very near having another difficulty. Robert Moore and Thos. King were the chief factors. The feelings between the two factions are anything but of a friendly nature. In passing on the street, some trivial affair brought on a word or two, and but for the prompt interference of by-standers, serious trouble would have ensued.

He presided with becoming dignity and his rulings not only showed him to be learned in the law, but gave satisfaction to the bar and litigants generally. —Eddyville Tale.

J. M. Walker, Com.

Sixty-Second Anniversary.

On the 7th, Mr. E. H. Porter, the well-known and highly esteemed pioneer citizen of the Piney neighborhood celebrated his sixty-second birthday. Early in the morning his friends, neighbors and relatives, began to gather at his pleasant country home to celebrate and make pleasant the day. Some thirty or forty were soon gathered around the man whose happiness they wished, and were entertained with interesting reminiscences from the good memory and strong mind of the venerable host. At noon a bountiful feast was spread, and the party fired sumptuously off of the best the land afforded, and hospitality was extended in the true old Kentucky style. When the sun in his grandeur and beauty began to kiss the western horizon, typical of the life that had long ago passed the noontide and is now admired in its sturdy course towards the horizon of time, the guests departed, leaving their benedictions upon Mr. Porter, and a prayer that God in his infinite wisdom, might spare to the good man, many happy returns of the day.

Mr. Porter began life in Crittenden county without means, but his energy, and economy and honesty made him prosperous, and now in old age, he is beyond want, and has the admiration and respect of all. A. J. E.

Mrs. Fastina Garrett, wife of Mr. Clayborn Garrett, died at her home in the Blackford neighborhood Friday. She was a most excellent christian lady, and her death is sincerely mourned by many relatives and friends. She was a daughter of Mr. Mose Walker.

We Raise Children.

A casual glance at the school statistics of the county, shows that we are not a barren people. According to the returns forty-five families in the county report as many as six children each, or a total 270, within the school age; eighteen families report seven children each, or 126, within the school age; two families report eight each and one report as many as nine. The number that reported four or five was too numerous to count. There is no danger of Crittenden county people getting into the clutches of the cloven foot, horny, old scamp, because of a failure to obey the edict which says "multiply and replenish the earth." Crittenden is not however entitled to the cake along this line when compared with some of the adjoining counties, if we are to make the award according to the progeny of some most excellent fathers within the scope of our acquaintance. There is Mr. John Earris of Livingston county for instance. He is the father of fourteen happy children, and besides these he had buried two. Then there is our old friend Jake Green, of Livingston. Count all of your fingers twice and add two to the number and the sum is the number of his sons and daughters. There is John Dorroh, of Lyon county; a few years ago he also had a score and two. Our old friend Lewis Walker, of this county, at last accounts, had nineteen, but he has not reported for a couple of years.

Rev. Rumsey Earl, colored, of Crofton, was before the Board of Medical Pension Examiners yesterday. He will deliver a lecture at the colored Presbyterian church to-night.

Yesterday Mrs. R. C. Brown, of the Repton neighborhood came to town and swore out a warrant, charging Wm. Crider, a young man of the same neighborhood with unlawfully detaining her against her will.

The Kings and Moore's Held to Answer at Circuit Court.

The examining trial of Wm. King, Benj. King and John Moore, the persons who engaged in the shooting and cutting scrapers Repton some weeks ago, an account of which was published in the Press at the time, began before Judge Moore Tuesday morning, and ended Wednesday evening. The two days was consumed in hearing the testimony and arguing the case of the Kings—Will and Benj charged with malicious cutting. The court held them in a bond of \$250 each to answer any bill the grand jury might find against them at the June term of circuit court. The case against John Moore, charged with malicious shooting, was called, when the defendant waived and examination and executed bond to be on hand to answer any indictment.

By agreement the cases against Jas. Duhose and Finny Moore, charged with concealed weapons, and John Moore charged with giving liquor to a miner were postponed until the July term of quarterly court.

RICH GOLD STRIKE.

Greatest Find Ever Made in the Northwest.

Baker City, Ore., May 14.—One of the richest gold strikes ever made in this section of the country, not excepting the famous White Swan mine, which is yielding \$1,000 per day with a ten stamp mill, was uncovered Thursday. The lucky finders are James and Samuel Bailey. The latter was one of the discoverers of the White Swan. The new find is situated about three miles south of the White Swan and is a rich mine. Over \$1,000 in gold was panned out Thursday in a hand mortar. The ledge in which this pocket has been found has uncovered 100 feet and proves to be a pay chute for that distance and varies in width from two to ten feet. There is enough rich ore in sight to make the owners an immense fortune. The city is greatly excited over the find and people are constantly leaving to be on the ground and stake off claims. A sample of one piece, weighing ten pounds and containing over \$100 in gold has been placed on exhibition at the National bank and has been viewed by hundreds of people. All say it is the greatest find ever made in the Northwest, and from all indications the mother lode of the Virtue and White Swan district has been found.

IT HAS SEEN BETTER DAYS.

The Private Car Used By President Lincoln to Be Sent to the Fair.

Omaha, Neb., May 15.—There stood, on a side track under the Eleventh-street viaduct last night, an interesting relic of old time railroad. It was the private car in which President Lincoln traveled about the country back in the sixties. It is a striking contrast to the palace on wheels of today. Running along the top of the car are the words, "Colorado Central Railroad," while beneath the window is painted the inscription, "Work Train," but so worn with age as to be almost indistinguishable. The car was brought in from North Platte yesterday, where it has been for years. It has been used as a boarding car for section men. It was built at Alexandria, Va., about thirty-five years ago. A narrow aisle originally ran along one side with doors opening in to the various compartments on the other side. It will be taken to the Union Pacific shops tomorrow, where it will undergo a thorough overhauling and be put in the same condition as when President Lincoln used it. It will be taken to Chicago for exhibition at the World's Fair.

THE PASTEST MILE.

Covered in 35 Seconds by a New Central Train.

Buffalo, N. Y., May 10.—All records were broken today by the New York Central's new Columbian engine, No. 999, attached to the Empire State express, which at one time on this trip attained the speed of a mile in thirty-five seconds. The train lost twenty-five minutes east of Syracuse on account of a foaming boiler, and left Syracuse twenty-three minutes late. It left Rochester at 4:15 and made the run from Rochester to Buffalo, sixty-nine miles, in sixty-eight minutes, or better than a mile a minute, making no allowance for the stop at Batavia. From Looneyville to Grimesville, a distance of five miles was traversed in three and a half minutes, or at the rate of a mile in forty-two seconds. One mile between Grimesville and the Forks was covered in thirty-five seconds. Charles Hogan was the engineer in charge of the train during this burst of speed. When the train started out it was not intended to make any effort at unusual speed. The time was kept by passengers on the train.

IN HIS WIFE'S CLOTHES.

Successful Escape from Jail of a Georgia Prisoner.

"Jul" Alfred was confined in jail at Cullman, Georgia, accused of being the leader of a white cap gang. The other evening Alfred's father-in-law took the prisoner's wife to see him. They came in a two-story wagon and the father-in-law and other members of the family camped in the wagon yard just opposite the prison. Alfred's wife was allowed to remain in jail for the night. Before day next morning the father-in-law requested the Sheriff to let his daughter out as he wanted to make an early start for home. The Sheriff unlocked the door for the wife to pass out and went back to his rooms. Later he went to the jail to take the wife to feed the prisoner and found that Alfred was not in his cell, but the wife was sitting there, dressed in her nightgown. The prisoner had dressed in his wife's clothing, put on her bonnet, taken the baby in his arms and passed out of jail, leaving his wife in his place.

Gorgeous Gypsy Wagon.

Logansport, Ind., May 11.—A few days ago a gypsy woman called at the carriage works of Hollmer & Upt, and ordered built at once a palace wagon. The carriage will be the handsomest one ever manufactured

here. The interior will be fitted up with fine folding beds. There will be a large plate mirror rich upholstering and other costly trappings. The gypsy who ordered the vehicle is a leader among her people. She was accompanied by her daughter, a beautiful dark-skinned maiden. The various bands of gypsies meet at Dayton, O., next fall to elect a Queen and the projected vehicle will carry the mother and daughter there. The mother desires to have her daughter elected Queen of the American gypsies, and thinks the palace wagon will have the effect of controlling a few votes. The wagon will cost over \$1,000. She was required to deposit \$500 before work on it commenced.

The Convict Problem.

[St. Louis Globe-Democrat.] Mr. Robinson the Commissioner of Agriculture of North Carolina, told the Southern Governors at Richmond of an experiment his State is making. A county is permitted to withdraw its convicts from the penitentiary and put them at work on the county roads. This has been done notably in Mecklenburg county, and for four miles out of Charlotte, in all directions, the roads have been constructed by re-construction by convict labor. So well pleased is the county with the result that the work is to be continued. Other counties are adopting the plan. Just as fast as the road construction reaches a farm it immediately appreciates its value. The effect is so marked that there is developing a very strong sentiment in favor of this disposition of convict labor. Commissioner Robinson believes it will spread until the whole convict force of North Carolina is engaged in building county roads.

Accidentally Shot and Killed.

A fatal accidental shooting occurred yesterday afternoon in the neighborhood of Lexington, this county, but the name of the victim could not be ascertained. The circumstances are that three boys were out hunting. Two had crossed over the fence and the third was getting over when the hammer of his gun caught against a rail and caused the weapon to be discharged, the contents lodging in the stomach of one of his companions. The wounded boy lingered in terrible agony until this morning, when he died at an early hour. A gentleman was in the city today enroute to Lexington county to inform a brother of the dead boy of the sad occurrence. —Palmer News.
